TECHNOLOGY COLLEGE**

**EMERGENCY EVACUATION  
POLICY  
2021-2022**

## Purpose of the policy

This policy details how [insert centre name] deals with an emergency evacuation of the exam room(s) by defining staff roles and responsibilities and confirming the emergency evacuation procedure.

## When is an emergency evacuation required?

An emergency evacuation is required where it is unsafe for candidates to remain in the exam room. This might include a fire in the exam room, the fire alarm sounding to warn of fire, bomb alert or other serious threat.

In exceptional situations, where candidates might be severely disadvantaged or distressed by remaining in the exam room, the emergency evacuation procedure may also need to be followed. This might include situations where there is severe disruption in the exam room, serious illness of a candidate or invigilator or similarly serious incidents.

As each incident may be different, advice will be sought from the relevant awarding body as soon as it is safe to do so, particularly where the centre is concerned about the security of the examination(s). (ICE 25.4)

Where candidates are unable to return to the building to complete the examination, the relevant awarding body will be contacted immediately for advice. The awarding bodies have procedures in place to ensure that candidates are not disadvantaged where they are unable to complete the examination due to circumstances beyond their control. (ICE 24.5)
