Engaged Students

JSTC offers a broad curriculum to match the needs and interests of its students, to enable them to reach their challenging targets.

Wider-Curriculum opportunities

In addition to our ever-popular Duke of Edinburgh scheme and Year 7 Camp we also offer opportunities to attend trips both in the UK and Europe. A London Theatre trip and Paris trip (which includes a day at Disneyland Paris) are already booked for 2025 to broaden students' horizons.

Investing in our Facilities

We are constantly investing in our site to improve teaching areas and facilities to support our students. With an additional £600,000 of work taking place across site in summer 2024, and £400,000 in 2025. This now takes the total invested in our site to approaching £4 million in the last decade.

Supporting our Pupils

Each year group has a Progress / Pastoral Team to provide academic and emotional support. Our dedicated staff (including Bailey our School Dog) will help with wellbeing issues to ensure students remain focused and happy.

-- Our Ethos & Expectations --

RESPECT, RESPONSIBILITY and RESILIENCE are the Core principles for everyone at JSTC. We have high expectations on attendance, behaviour and engagement. Key attributes needed to allow students to develop into confident, respectful and motivated young adults.
